RE: Duane Marine Project #1982 E-24

Dear John:

As specified on the delivery order dated July 12, 1984, Section 12, Item 4, "Provide short time analysis of oil samples for PCB and oil signature with report to OSC". OHM personnel obtained an oil sample from the water for PCB analysis. The sample was delivered to OHM's mobile laboratory located in New York City.

The sample was only a scan for PCB's with the cut-off range of 50 ppm., (Per TSCA Regulations). The sample result was reported to the US EPA the following morning as less than 10 ppm. Therefore, the Coast Guard took control of the project and their contractor proceeded with the clean-up.

OHM removed their equipment on July 13, 1984. The invoice will be issued from OHM's corporate office in Findlay, Ohio under the Emergency Response Clean-up Contract.

If you have any questions, please contact me at 609-586-5753 or Bob Ohneck at 1-800-537-9540.

Sincerely yours,

John Boes
